Dear Jim:

I am in receipt of some correspondents from Stewart Dunsker relating to the Joint Section on Spine Disorders. This is in the minutes of the meeting held in April 5th in Boston.

There is mention in there of a study of lumbar disc disease by NINCDS, that Murray Goldstein is interested in this, and that you would be willing to serve as contact for it.

Murray has talked about this off and on for a number of years that I am aware of. I think it is an extremely valuable study and it certainly should be done. I don't know in what format you propose to do it, but let me lend what weight and influence I may have to getting on with it during the next calendar year.

With my best regards, I remain

Kemp Clark, M.D.  
President
