Henry Garretson, M.D., Ph.D.
Division of Neurosurgery
Room 316, MDR Building
University of Louisville
Louisville, KY 40292

Dear Henry:

The AANS Spine Task Force Committee composition is now complete. Ed Connolly will serve as Chairman. The other members of the Task Force include David Kelly, Jim Robertson, Sid Tolchin, Ernie Fokes, Sam Larson, and Chris Shields.

All of these individuals have indicated a sincere willingness and desire to work on this Committee. The Committee itself is drawn from a broad representation and will thoroughly represent the membership of the AANS.

The Committee plans a formal meeting at the annual meeting of the AANS, and sometime this summer the full Committee plans on a meeting at the central office in Chicago that will probably occupy the greater part of one day. I am enclosing a letter that I mailed to Ed Connolly some time ago spelling out the charge to this Committee. I think that my letter accurately reflects the sense of the Board of Directors at the November 1987 meeting. I have no doubts that we will see some good things come out of this Task Force Committee.

Sincerely,

George T. Tindall, M.D.
