Developments from the Executive Committee

As we discussed, the AANS Executive Committee has decided to appoint Doctors Rhoton and Quest as Co-Chairmen of an Advisory Committee for the HSCIP Program. They have also agreed that Doctors Watts and Eyster should serve on this Committee. It is my understanding that Doctor Tindall will confirm all this with Doctor Shields. Accordingly, it is my understanding that Doctors Rhoton and Quest will want to meet with you at the CNS meeting in Seattle, on Monday at 7:00 a.m., and then the three of you will subsequently meet with Doctors Watts and Eyster, Kathy Cain and Kathleen Mougey.

Please allow time for a copy of this letter to reach Doctors Tindall and Rhoton, and then contact Doctor Rhoton for further instructions.

The AANS Executive Committee agreed that Staff has the authority to contract with a new video-tape reproduction company, based on the less-than-satisfactory service offered by the current company, and the fact that their prices are not competitive as well.

The Executive Committee was most interested to insure that you plan to attend the meeting on "Injury in America" in San Antonio, either later this month or in October. The Committee is unsure whether Doctors Watts and Eyster have informed you of the importance of this meeting (as it was not included in your summary). However, they believe that your attendance is essential.
